rechtsanwälte

Think renewable energy?
Think beck.

Legal advisers on wind-, solar- and bioenergy.

Think capital investment? We leave no issue unresolved.

What has to be taken into account when developing, financing, purchasing or selling renewable energy projects?

What impacts will the EEG have on my project?

What are the pitfalls found in contracts?

What legal factors need to be considered in direct marketing?

Investing in renewable energy presents opportunities as well as an increasing range of challenges. To successfully cope with them, we provide you with expert knowledge and a hands-on mentality, especially when it comes to:

- + Structuring and implementation of acquisition and disposal processes
- + Legal due diligence to identify and assess risks
- + Analysis of and solutions for project development and business operations
- + Optimization and coverage of existing projects
- + Assistance with legal challenges in relation to financing and rescheduling

beck rechtsanwälte's cutting-edge expertise, experience and ability to come up with pragmatic and practical solutions have been acquired over the course of various projects totaling more than 1 GW. Additionally, your investment project will benefit from our extensive network, which covers all branches of the renewables sector.

Think market entry? We leave no question unanswered.

Which legal form is the most suitable for my purposes?

What needs to be considered when hiring staff or renting offices?

What has to be taken into account in terms of distribution?

Which permits will I need?

Entering the German market means facing a range of regulations and special legal issues. We facilitate your business success with our experts and experience, especially in relation to:

- + Choosing the right corporate form
- + Providing shelf companies
- + Offering businesscenter-services
- + Applying for all relevant permits and registering with the appropriate authorities
- + Drafting and validating all relevant contracts such as employment agreements and lease contracts
- + Choosing, drafting and validating the right types of distribution contracts such as those for sales and trade representatives

Over the past 20 years, we have helped hundreds of companies to successfully establish their business in Germany. By finding an individual answer to every question, our attorneys continue to contribute to the success of many more market entries. If you are planning to found a business in Germany, we look forward to answering your questions.
